*ENTC is a manufacturing company
for valves in Egypt*

ABOUT US :

ENTC Company was founded in 2000 by Dr. Abdel Hamid Nour and his wife in Cairo, and by its children and its own work team.

- The company was able to prove to the Egyptian market that it has a degree of technical and practical competence and technical support.

ENTC Investment and Trade have specialized in supplying valves for 23 years, in addition to providing integrated solutions in the following fields:

1-HVAC valves

2-Plumbing valves

3- infrastructure valves

4-Flanges

5- Gaskets

- ENTC company has the right product for each function. In 2017 entc has become a major business for valves in Egypt

- In 2019 ENTC launched its second step to manufacture (Flanges, Dismantling joint), with Egyptian test certificates, according to the Egyptian standard, the European standard and the US standard, to provide products with international standards to suit the strength and accuracy of the Egyptian market

Some of the projects we participated in:

- 1- TB-2 Cairo international airport.
